GENERAL ANNOUNCEMENTS

Re-Launch of CRM Advise to Reach all Faculty by Summer 2020

The new launch team represents all departments, colleges, and schools on campus, and we will be working through May 2020 to design and build LU's new CRM Advise environment. It will be tested in Summer 2020, and rolled out to the entire campus for use by August 2020. Faculty interested in playing a role on the CRM Advise Re-Launch team should CONTACT Amy Miller (millera2@lincolnu.edu) for more information. The Launch Team plans to visit Faculty Senate in March to provide a brief demo and discussion of CRM Advise.

Black History Month Celebrations!

It was an extremely busy and incredibly successful month of events organized, led by, and/or including faculty involvement. All of them were full of thought-provoking talks, critical discussion, debate, entertainment, and most importantly, student engagement. It was truly a team effort born out of love for Lincoln University. The following people should be recognized for contributing their skills, time, and talents toward making February 2020 one of LU's best Black History Months ever!

Jessie Adolph, Mick Brewer, Ithaca Bryant, John Fandrey, Jane Frazier, Amy Gossett, Avila Hendricks, Danisha Hogue, Robert Holman, Bradley Kuykendall, Octavia Ridenhour, Jesse Robey, Alphonso Sanders, Marris Seymour, Mark Schleer, Bruce Scovill, Ayanna Shivers, Sharon Squires, Darius Watson, Jerald Woolfolk, Misty Young... and the many students who performed music and poetry at some of the events! (Apologies if anyone was missed!)

ITS will be working with both Beacon and Hannon Hill to implement the Cascade CMS solution

Part of the Cascade CMS implementation will include the Newsroom module and below features. The Newsroom is a free-standing site with everything you need to get started creating, categorizing, publishing, and sharing news releases. The site comes with templates for a homepage, a news release page, category pages, monthly and yearly index pages, and an image repository. It is available in both XSLT and Velocity. Features include: In-context editing, Bootstrap responsive framework, Font Awesome font icons, Social sharing example on each News Release, and RSS and Atom feed examples. For more information CONTACT Chief Information Officer John Bax, baxj2@lincolnu.edu.
